***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10 and 20-22, drawn to a method and computer program product for determining a price at which a new expendable is to be supplied, classified in class 705, subclass 400.
  - II. Claims 11-19 and 23-33, drawn to a method, device and computer program product for supplying a new expendable in response to a user request, classified in class 705, subclass 26.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as determining a price for an expendable product. Invention II has separate utility such as accepting an inquiry regarding supplying a new expendable and providing the device in response to the user inquiry. See MPEP § 806.05(d).
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Hayes whose telephone number is (571)272-6708. The examiner can normally be reached Monday through Friday from 5:30 to 3:00.
